

Wireless – IoT – MCU

Useful to know whom to contact if you have any questions...

More than 40 years of First-Class Premium SUPPORT

Quick start with starter kits and tool

High-quality, complex products also require high-quality support.

Worldwide, there are about 50,000 different microcontroller and wireless derivatives and an estimated 10,000 hardware and software development tools supplied by all manufacturers on the market. Hardware and software manuals typically contain over 1,000 pages of information about a product.

Webinars and workshops provide guidance

This is where you need an experienced and reliable professional, who will reliably support you through all phases of your project. Because the right support is just as important as the product!

Adapter boards and reference designs

We at GLYN can offer you over 40 years of expertise and have excellent contacts to our suppliers. In so doing, we focus on selected manufacturers with extended hardware and software support from 3rd party providers.

GLYN GmbH & Co. KG
Am Wörtzgarten 8
D-65510 Idstein

GLYN
High-Tech Distribution

Portfolio

EZURIO

Antennas, Revie Flex, FlexMIMO, FlexPIFA™, mFlexPIFA™, FlexNotch™, Nanoblue, Mini Nanoblade Flex, Cable, intelligent Gateways and Sensors for IoT, Software Solutions, smartBasic, Summit™-60, Sterling™-60, Sterling™-LWB™, System-On-Modules (SOM), NFC, Wi-Fi, Bluetooth 5.x, BLE, Pinnacle™ 100, LTE, CAT-M1, NB-IoT, LoRa, Modbus, ZigBee, Thread

FTDI

USB Host Controller ICs, USB to Serial-Adapter and ICs, customised Solutions, USB 3.0 Solutions, USB Hub, USB Interface Cable, USB-C with PD Solution

MIROMICO

Intelligent Gateways and Sensors for the IoT, Wi-Fi, Bluetooth 5.x, BLE, LTE, CAT-M1, NB-IoT, LoRaWAN, Modbus, ZigBee, Thread, Mioty

QUECTEL

2G/3G Modules, 4G Modules: LTE, 5G Modules, GNSS Modules, LPWA Modules, Satellite Modules, intelligent Modules, Wi-Fi Modules, Antennas, EVB-Kits, IoT Solutions

SEMTECH/ SIERRA WIRELESS

Cellular radio 2G (GSM/GPRS/EDGE), 3G (UMTS/HSPA), 4G (LTE), 5G, LPWA (LTE-M, NB-IoT), AirPrime™ Embedded Modules, AirLink™ Intelligent Gateways and Router, AirVantage™ Service Plattform and Cloud Solutions, Wi-Fi and Bluetooth Modules, GNSS Positioning Modules

SILICON LABS

Scalable energy-friendly IoT Solutions: Wi-Fi, Bluetooth, BLE 4.x, Bluetooth 5.x, ZigBee, Z-Wave, Thread, Modules and SoCs (SoCs Portfolio, Cortex®-M4, Cortex®-M33, Cortex®-M3, Cortex®-M0+, wireless Gecko EFR32, wireless Gecko EZR32), Microcontroller (Cortex®-M4F, Cortex®-M33, Cortex®-M3 and Cortex®-M0 EFM32 Gecko, EFM8, C8051), Matter, USB Interface Modules, Temperature and Humidity Sensors, Current Sensors, Magnetic Hall Effect Sensors, Optical Sensors

SKYWORKS

Digital Isolators, Isolated Gate Driver ICs, Isolated FET Driver ICs, Power over Ethernet (PoE), Clock Generators, Oscillators, TV and Video Tuners, Audio and Radio Solutions, Modem ICs, Hardware and Software Tools
