

## The ordinance (EC) No. 1907/2006

Ordinance (EC) No. 1907/2006 on the **Registration, Evaluation, Authorisation and Restriction of CHemicals**, a legal provision regulating chemical substances is primarily intended to protect human health and the environment. For this reason, it imposes various obligations on different types of economic operators.

Glyn GmbH & Co KG is an authorised distributor of electronic parts and components. As a distributor, we are unfortunately unable to make material declarations, as we do not have specific knowledge of the production process or the ingredients in the products we sell. With regard to the ingredients, we are 100% dependent on the information and declarations provided by the respective manufacturer.

Glyn is a member of the FBDi (Fachverband der Bauelemente Distribution e.V.) and is actively involved in the relevant environmental and compliance committees, which work with legislators and manufacturers to develop practical solutions.

Glyn also works continuously and intensively to ensure that our customers have access to our manufacturers' REACH declarations on the products we supply.

As we are only intermediaries, we can only pass on the information provided by the respective manufacturer. Please understand that we are not in a position to fill in lists sent to us, but can only process enquiries about specific items.

## Substances of Very High Concern (SVHC) as referred to in Article 33

GLYN is fully aware of the requirements contained in Article 33 of the REACH regulation and provides its customers with information in accordance with the legal requirements.

The current SVHC list ("candidate list") is published by the European Chemicals Agency ECHA and can be viewed here: <https://www.echa.europa.eu/en/candidate-list-table>. Further information about the REACH regulation can be found on the ECHA website: [www.echa.europa.eu/en/home](http://www.echa.europa.eu/en/home)

Please contact your local distributor if you have any further questions regarding the REACH conformity of products.
